None

Courses

Graduate

1 course in the department

Faculty and Researchers

5 faculty members and researchers across the department

5 are involved in interdisciplinary diversity-related research centers

Faculty expertise in diversity-related topics across the School of Dentistry includes clinically based interventions, community dentistry, global health, health disparities among ethnic/racial groups, mind-body interaction, and public health.

Examples of Service

The UCLA School of Dentistry maintains strong community service partnerships. Current community partners include First 5 LA, Upward Bound House, and Wilshire Bank. In addition, the School of Dentistry's pipeline and pathways programs provide young adults access to better educational opportunities and careers in dentistry and health services. The Pre-College Science Education Program exposes gifted but educationally disadvantaged high school students to scientific research and potential careers in the health sciences.
